**THIN WALLED - LIGHT WEIGHT
- ONE & DONE FABRIC**

Root Pouch has developed a thin walled breathable fabric specifically for cannabis grow rooms. Half the weight and thickness, making it the lightest blend available.

Root Pouch charcoal pots, 150 g/m² one and done fabric pot for grow rooms.

TESTED

Created for, not adapted to, growing plants for human consumption.

BUSINESS

Root Pouch is the only fabric container company that is fully vertically integrated. Controlling the raw materials, manufacturing the fabrics, and sewing the pots to distribute through the industry and into the hands of the end users.

ENVIRONMENT

Root Pouch is made of recycled plastic water bottles and natural fibers.

Root Pouch has removed an average of 1000 metric tons of water bottles per year.
